

<https://chatgpt.com/share/6950dc86-cdc0-800c-9f72-442e8e66e941>

Below is a structured **deep study resource compendium** for the key **Tier 1 AI Engineer certifications** (Professional Machine Learning Engineer on GCP, AWS Certified Machine Learning Engineer – Associate, and Microsoft Azure AI Engineer Associate). It includes official exam pages, top online courses (with priority to Coursera), troves of study materials, practice question sources, and real-world blogs/notes.

Certification Resource Table (Dec 2025)

Certification	Official Exam / Info	Top 1–2 Study Courses	Study Material Repositories	Practice Exam Sources	Blogs / Notes / Experience Stories	GitHub Repositories / Topics
Google Professional Machine Learning Engineer	 Official Google page — Professional ML Engineer exam info and guide (topics, sample questions, scheduling etc.) (Google Cloud)	0) Coursera – Preparing for Google Cloud Certification: Machine Learning Engineer Professional Certificate 1) Udemy – GCP Professional ML Engineer Practice Exams (Mock + explanations) (Udemy) (Note: No official Coursera course specific to this certification exists yet) 2) Google Cloud Skills Boost ML Learning Path (via official links on exam page) (Google Cloud)	• Reddit GCP Certification thread — shared study materials (community curated) (Reddit) • Google Cloud Skills Boost training modules (from official exam page) (Google Cloud) • Google Cloud documentation on Vertex AI and ML best practices (links on official study guide) (Google Cloud)	• Whizlabs practice questions (free + paid) — GCP ML exam Q&A (Whizlabs) • ServerSide & Tutorialspoint practice sets (multiple question collections) (Tutorialspoint Market) • ExamTopics – free practice repository (ExamTopics)	• Medium exam notes & tips — personal exam strategy guide (Medium) • Reddit “PMLE prep” tips & community experience (Reddit) • Medium learner journal / roadmap — detailed narrative of exam preparation approach (Medium)	🚀 Machine Learning Engineer Professional Certificate – course-style repo offering structured content and Vertex AI focus (GitHub) (GitHub) 🚀 gcp-ml-certification – study guide + PDF notes for exam prep (GitHub) 🚀 GitHub Topic: google-professional-ml-engineer – related repos, study code examples (topic page) (GitHub)
AWS Certified Machine Learning Engineer – Associate	 Official AWS certification page — ML Engineer – Associate (MLA-C01) info & exam guide (Amazon Web Services, Inc.)	0) Coursera – Exam Prep ML A-C01: AWS Machine Learning Engineer Associate Specialization 1) Udemy AWS ML Engineer Associate courses (multiple, often by Stephane Maarek or others, often recommended in community posts) — search on Udemy. (Note: direct Coursera course for this specific AWS exam is not widely available yet) 1.1) AWS Certified Machine Learning Engineer – Associate Courses 2) AWS Skill Builder learning plans and labs (from official AWS prep steps) (Amazon Web Services, Inc.)	• Tutorials Dojo AWS MLA exam guide (domain-level outline + tips) (Tutorials Dojo) • Reddit AWSCertifications threads — aggregated community advice & links (Reddit) • AWS official exam guide (linked from AWS site) (Amazon Web Services, Inc.) AWS ML and AI Cheatsheet	• FlashGenius practice questions (free and paid) — AWS MLA practice Q&A sets (FlashGenius) • ServerSide ML Associate Exam Simulators — practice Q&A (TheServerSide) • Udemy AWS ML practice exams (search by course name) FREE AWS Certified Machine Learning Engineer Associate (MLA-C01) (Timed Mode)	• Medium personal AWS MLA experience — timeline & exam insights (Medium) • ContainsCloud blog on AWS ML experience — discussion of exam difficulty & tips (containscloud) • Reddit AMA-style threads with prep insight (Reddit) https://www.linkedin.com/pulse/exploring-aws-machine-learning-certifications-andy-kroll-btvac/	🚀 AWS-Certified-Machine-Learning-Engineer-Associate-MLA-C01- – personal repo documenting journey & prep strategy (GitHub) (limited official repos exist, but templates help orient study)
Microsoft Azure AI Engineer Associate (AI-102)	 Official Microsoft cert page — Microsoft Certified: Azure AI Engineer Associate (AI-102) exam guide + study resources (Microsoft Learn)	1) Coursera – Exam Prep AI-102: Microsoft Azure AI Engineer Associate (Whizlabs-hosted course on Coursera) (Coursera) 2) Udemy – AI-102 Microsoft Cert Course for deep dive, hands-on labs (Udemy)	• Microsoft Learn AI-102 learning paths (official modules + docs linked on Microsoft page) (Microsoft Learn) • TutorialsDojo Azure AI-102 study cheat sheets & guides (Tutorials Dojo) • LinkedIn Learning free resources shared by community (LinkedIn)	• LinkedIn Learning – Practice Exams for ML Engineer (Azure AI-102) (LinkedIn) • Third-party AI-102 practice tests on Udemy / TutorialsDojo (search on those sites) (Tutorials Dojo)	• Medium guide: “I passed AI-102” with study strategy (Medium) • ProjectPro Azure AI-102 certification walkthrough – detailed preparation strategy (ProjectPro) • LinkedIn community resource shares with cheat sheets, video links, and PDFs (LinkedIn)	🚀 azure_ai102_labs – experiment repo for Azure AI Services labs (hands-on) (GitHub) 🚀 Azure-AI-Engineer-Associate-Notes – Markdown notes for AI-102 concepts & Azure services (GitHub) 🚀 GitHub Topic ai-102-questions-answers – question/answer style repos to explore exam Q&A examples (GitHub)

Certification	Official Exam / Info	Top 1–2 Study Courses	Study Material Repositories	Practice Exam Sources	Blogs / Notes / Experience Stories	GitHub Repositories / Topics
	https://learn.microsoft.com/en-us/credentials/browse/?subjects=artificial-intelligence&credential_types=certification Microsoft Certified: Agentic AI Business Solutions Architect Microsoft Certified: Azure AI Engineer Associate Microsoft Certified: Azure Data Scientist Associate Microsoft Certified: Machine Learning Operations (MLOps) Engineer Associate (beta)					
Oracle OCI Generative AI Professional (1Z0-1127-25)	 https://education.oracle.com/oracle-cloud-infrastructure-2025-generative-ai-professional/pexam_1Z0-1127-25 (official exam page)	 Oracle MyLearn official path: https://mylearn.oracle.com/ou/course/oracle-cloud-infrastructure-generative-ai-professional/147932  Coursera specialization: https://www.coursera.org/specializations/oracle-cloud-and-ai  Udemy OCI GenAI courses	• Oracle Learning Library + OCI docs • Oracle Generative AI Service docs (LLM, RAG, embeddings) • Oracle Database 23ai + vector search materials	• Official Oracle practice tests • ValidExam / CertEmpire style Q banks (certempire.com) • Scribd / community dumps (use carefully)	• LinkedIn cheat sheets (LinkedIn) - watch out for outdated info • OCI GenAI certification guides (k21academy.com) • Forum discussions on exam experiences (Oracle Forums)	• github.com/search?q=oci+generative+ai • oracle-devrel repos • LangChain + OCI integration repos

What Each Column Means

1. Official Exam / Info

- These are the **truth sources** from the certification provider. They show exam outlines, objectives, how to register, sample questions, and official study tips.
- These pages often include downloadable **exam guides** and sample questions. ([Google Cloud](#))

2. Top Courses to Learn the Material

- Coursera is included if available (e.g., **AI-102 Prep Course**). ([Coursera](#))
- For GCP & AWS ML Associate — best offerings often come from **Udemy** or **cloud vendor training paths**. ([Udemy](#))

3. Study Material Repositories

These are *collections of resources* you can browse for topics, deep dives, labs, and exam skills breakdowns:

- Reddit threads often compile community suggestions. ([Reddit](#))
- Cloud provider official docs and learning paths (linked from official pages) are the *most authoritative* study materials. ([Microsoft Learn](#))

4. Practice Exam Sources

Practice exams help you understand *question style, pacing, and weak areas*. They range from free samples to paid exam simulators:

- Whizlabs, ExamTopics, FlashGenius, and LinkedIn Learning are reputable practice sources. ([Whizlabs](#))

 **Caution:** Avoid unofficial “braindumps” with leaked content. Always prioritize learning over memorizing real exam questions.

5. Notes / Personal Experiences

These are blogs / Medium / Reddit posts from people who *actually took the exams*. They often contain real-world timelines, tips, pitfalls, and strategy guidance. ([Medium](#))

Quick Starting Paths (per Certification)

Google Professional Machine Learning Engineer

- Start with the **official exam guide & learning path** on Google Cloud. ([Google Cloud](#))
- Use practice simulations (Whizlabs + ExamTopics). ([Whizlabs](#))
- Supplement with community threads on Reddit for insights. ([Reddit](#))

AWS Certified ML Engineer – Associate

- Begin on the **AWS official certification page**. ([Amazon Web Services, Inc.](#))
- Do AWS Skill Builder lab content + a Udemy prep course.
- Practice with FlashGenius and server-style exam simulators. ([FlashGenius](#))

Azure AI Engineer Associate (AI-102)

- Study **Microsoft Learn AI-102 paths** + Coursera prep course. ([Microsoft Learn](#))
- Reinforce with LinkedIn Learning practice tests. ([LinkedIn](#))
- Read personal study guides and blog posts for strategy tips. ([Medium](#))

If you want, I can **export this table into a downloadable spreadsheet/PDF**, or tailor it specifically to your background (e.g., AWS vs Azure vs GCP) and learning style (hands-on labs vs project-based vs video first). Just let me know!

Absolutely — here are **GitHub resources** relevant to the Tier 1 AI Engineer certifications (GCP Professional ML Engineer, AWS Machine Learning Engineer Associate, Azure AI Engineer Associate), organized so you can incorporate them into your study plan.

GitHub Resources for AI Certification Prep

Certification	GitHub Repositories / Topics	What It's Useful For
Google Professional Machine Learning Engineer	 Machine Learning Engineer Professional Certificate – course-style repo offering structured content and Vertex AI focus (GitHub) (GitHub)  gcp-ml-certification – study guide + PDF notes for exam prep (GitHub)  GitHub Topic: google-professional-ml-engineer – related repos, study code examples (topic page) (GitHub)	• Practical code examples & labs on GCP ML concepts • Structured notes for planning daily study • A starting point for building your own study repo
AWS Certified ML Engineer – Associate	 AWS-Certified-Machine-Learning-Engineer-Associate-MLA-C01- – personal repo documenting journey & prep strategy (GitHub) (<i>limited official repos exist, but templates help orient study</i>)	• Candidate exam experience and recommended topic focus • Useful for constructing your own exam checklist
Azure AI Engineer Associate (AI-102)	 azure_ai102_labs – experiment repo for Azure AI Services labs (hands-on) (GitHub)  Azure-AI-Engineer-Associate-Notes – Markdown notes for AI-102 concepts & Azure services (GitHub)  GitHub Topic ai-102-questions-answers – question/answer style repos to explore exam Q&A examples (GitHub)	• Hands-on labs for Azure AI services • Community notes for AI-102 study areas • Sample collections of Q&A style cards to practice

Quick Links — GitHub Repos Worth Bookmarking

Google Professional ML Engineer

- <https://github.com/galois1915/Google-ML-Engineer> — comprehensive structured ML content aligned with the GCP Professional ML Engineer focus ([GitHub](#))
- <https://github.com/zabir-nabil/gcp-ml-certification> — study guide + PDF notes for exam prep ([GitHub](#))
- <https://github.com/topics/google-professional-ml-engineer> — GitHub topic page listing relevant repos ([GitHub](#))

AWS Certified Machine Learning Engineer – Associate

- <https://github.com/jesper090/AWS-Certified-Machine-Learning-Engineer-Associate-MLA-C01-> — certification journey + prep notes ([GitHub](#))
(There are fewer dedicated repos for AWS MLA; use this as inspiration to build your own project collection.)

Azure AI Engineer Associate (AI-102)

- https://github.com/mqrious/azure_ai102_labs — hands-on labs for Azure AI services ([GitHub](#))
- <https://github.com/kennethleungty/Azure-AI-Engineer-Associate-Notes> — curated study notes for AI-102 concepts ([GitHub](#))
- <https://github.com/topics/ai-102-questions-answers> — repo topic for AI-102 style Q&A collections ([GitHub](#))

Certification Topics Broader Search

- <https://github.com/topics/ai-certification> — multiple repos related to AI certification paths, including curated lists and free-learn resources ([GitHub](#))

How to Use These GitHub Resources Effectively

1) Clone & Customize Your Study Repo

Create your own **certification prep repo** by cloning any of the relevant GitHub repos — add your own notes, labs, flashcards, and practice questions. This turns passive study into active learning.

2) Labs + Hands-On Projects → Real Skill Application

For Azure AI-102, the [azure_ai102_labs](#) repo provides hands-on examples you can run and modify. Pair these with Microsoft Learn hands-on challenges. ([GitHub](#))

3) Notes + Cheatsheets + Q&A Collections

Use repos like [Azure-AI-Engineer-Associate-Notes](#) to supplement official docs. Reformat these into your own flashcards to improve recall. ([GitHub](#))

4) Build Your Own Practice Questions Repo

Fork AI-102 Q&A topics and add your own practice questions. For AWS MLA, write your own Q&A that mirror common exam domains — feature engineering, SageMaker workflows, deployment patterns.

Optional GitHub-Based Study Projects (Useful for All Certs)

Even beyond the certification-specific repos, the following kinds of GitHub projects help reinforce skills:

- **Production-ready ML infra learning path** — e.g., *AI Infrastructure Engineer Learning Path* teaches deployment patterns relevant to all cloud certs. ([GitHub](#))
 - **Awesome public datasets repos** — not cert specific but great for building projects: *Awesome Public Datasets Github*. ([Wikipedia](#))
 - **ML concept repos** — for practice code on models, pipelines, MLOps workflows.
-

If you want, I can now **update the certification table** from the previous message to include all of the above **GitHub links** in a clear format (spreadsheet-style), or extract the **best projects + labs** into a consolidated study repo outline!
